

7.2.1: Describe two best practices successfully implemented by the Institution as per NAAC format provided in the Manual.

1 Title of the Practice

Creation of atmosphere in the institution where social commitment becomes challenge for students through experiential learning which further helps the rural area peoples

• Objectives of the Practice

Awareness about farmer's issues among students.

To carry out informative sessions to villagers and farmers.

- **The Context:** The farmers are the major part of Indian population. So the institute plans to work with farmer's issues by considering following things

1. Student's Commitment towards farmer's development
2. To enhance the presentation skills of students by interaction with farmer.
3. Informative lectures by staff to increase the knowledge of students and farmers.

- **The Practice:** The practice is termed as **Farmers Education** in which following departments are involved.

1. Physics-Solar energy and electricity consumption awareness
2. Chemistry-Soil and water analysis
3. Zoology- Pest control management and practices
4. Botany- Cropping pattern
5. Commerce- Farm Accounting
6. Financial Literacy about Central Budget
7. Geography-Weather prediction and water management

Farmer meet is organized where farmers discuss their problems with staff. Student interacts with the farmers through survey. Staff and student visited to villages for farmer's training.

• Evidence of Success

- Enhancement of student participation and experiential learning.
- Increases farmer's knowledge which helps to adopt practices that are profitable, environmentally sound, and contribute to quality of life.
- Capacity building among students in policy making, planning, programme development, public relations and mobilization of skills.

• Problems Encountered and Resources Required

- Support from the community and local bodies for successful implementation is needed.

2. Title of the Practice

Personality Development of Students in the college through National Service Scheme.

• Objectives of the Practice

- To identify the needs and problems of the community.
- To develop a sense of social and civic responsibility.
- To utilize knowledge in finding practical solution to individual and community problems.
- To acquire leadership qualities and democratic attitude.
- To gain skills in mobilizing community participation.

- **The Context:** In education continuous involvement of the student and teacher with a harmonious relation that enhances the hidden talent of the student is a must to boost knowledge horizon. This is an exemplary practice since the teacher keeps thorough watch on the performance of the student and corrects him/her in every step, which provides conducive atmosphere for the improvement and development of the skill, ultimately leading to perfection.

• The Practice:

As considering the students improvement, institute has decided to conduct some social activity for nearby village peoples where all the practice have to be done by the students with the help of staff. In this practice each works are assigned to group of students, where various tasks are given to students. These students then make the tentative plan and approached to particular assigned staff to solve their problems and for some advice needed. As there are various committees so in each committee students are forming a group where they are working as a team. Students make conversation with villagers so they get the knowledge by interaction. Some of the students make the decision on which activities are to be select where they think about not to harm social community. At the end seven days special camp are planned by the students and did successfully. In these seven days students get enough knowledge about personality development.

• Evidence of Success:

At the end of the program, most of the student's shares there view regarding the all seven day work, where they mentioned that they learn lot of things. Overall performance of the students regarding personality development is greatly improves. Since all the work should be done as team work, therefore students can be able to work in a team. Students become more comfortable when talking to other people's day by day; in this way there communication skill is increased. Due to this practice, being a citizen of this country, the social awareness related work is greatly acknowledged by the visitors. Local management committee members are also greatly involved in the practice.

• Problems Encountered and Resources required:

Not all students are benefited through this scheme. Budget provision is more therefore more funds are needed to increase. Invitations to all nearby peoples are not possible.
